The Company

We are a Surat-based software development company engaged in providing Software Solutions since 1995. We started our operations with the launch of **RELY** accounting software for shops in the local textiles market, and then gradually we customized it owing to growing demand to include other businesses like Dyeing & Printing Mills, Weaving units, Diamond Manufacturers & Traders, CAs & Accounts Consultants, Finance & Leasing Companies, Computer Vendors & Assemblers and many more. The result is a 5000-plus family of customers.

Product Support

We constantly review and improve our products according to the changing business requirements, new government policies and upcoming technological trends. Our customer service & support system is computerized and networked with online support using internet and mobile communication facilities. No calls go unattended or missed.

Software services & solutions

We execute turnkey software projects based upon our expertise in all the facets of System Development Life Cycle. Our team possesses competencies on Project Management and on Microsoft technologies like .NET in Enterprise Applications like ERP, Financial Accounting & Inventory Management.

Our Other Software Products :

- Service call management software
- Sticker printing software
- Payroll software
- Colour costing & inventory software (for dyeing and printing mills)
